

We provide the Information Security experts so you can sleep well at night knowing you are protected.

blueStone Staffing is a specialized IT staffing firm that has been providing Information Security consultants across the nation for over 15 years.

PAST PERFORMANCE

- Worked with US based cellular company to supply existing team with CISCO experts to configure new firewalls
- Provided consultants to perform 24x7 advanced tier troubleshooting, including off-hour maintenance activities, problem resolution, and on-call troubleshooting efforts during data network outages
- Worked with a nationally ranked healthcare company to provide security engineers and analysts with in-depth knowledge of information security risks and security frameworks (HIPAA)
- Assisted in the development and maintenance of system security plans and system security authorization agreements
- Designed, implemented, maintained and integrated a WAN, LAN and server architecture along with managing the network security technologies (hardware and software)
- Led the overall definition, implementation, and assessment of the organization's strategy and programs of work to ensure the security of information assets by leading the development of the Global Data Protection program
- Directed and improved the Data Protection, DLP programs and associated governance activities including: metrics, issue tracking and remediation, and programs supporting policies and standards
